Gab is a chat application where users can send text messages to other Gab users . Also one can share their photos,videos , may have one to one audio / video call , can create groups with their contacts (who are Gab users too) . Groups created will have all features included in one to one communication. Users can invite other people from their contacts to join Gab

You should be aware that there are certain things that Gab will not take responsibility for. Almost all functions of the app, such as the ability to chat with others or make calls will all require the app to have an active internet connection. The connection can be Wi-Fi , or provided by your mobile network provider, but Gab cannot take responsibility for the app not working at full functionality if you don't have access to Wi-Fi, and you don't have any of your data allowance left. If you're using the app outside of an area with Wi-Fi, you should remember that your terms of agreement with your mobile network provider will still apply. As a result, you may be charged by your mobile provider for the cost of data for the duration of the connection while accessing the app, or other third party charges. In using the app, you're accepting responsibility for any such charges, including roaming data charges if you use the app outside of your home territory (i.e. region or country) without turning off data roaming. If you are not the bill payer for the device on which you're using the app, please be aware that we assume that you have received permission from the bill payer for using the app.

At some point we may wish to update the app. The app is currently available on iOS – the requirements for this system (and for any additional systems we decide to extend the availability of the app to) may change, and you'll need to download the updates if you want to keep using the app. Gab does not promise that it will always update the app so that it is relevant to you and/or will work with the iOS version that you have installed on your device. However, you promise to always accept updates to the application when offered to you. We may also wish to stop providing the app, and may terminate your use of it at any time without giving notice of termination to you. Unless we tell you otherwise, upon any termination, (a) the rights and licenses granted to you in these terms will end; (b) you must stop using the app, and (if needed) delete it from your device.
