

Newsmill Terms & Conditions

By downloading or using the app, these terms will automatically apply to you – you should make sure therefore that you read them carefully before using the app. We are offering you this app to use for your own personal use without cost, but you should be aware that you cannot send it on to anyone else, and you're not allowed to copy, or modify the app, any part of the app, or our trademarks in any way. You're not allowed to attempt to extract the source code of the app, and you also shouldn't try to translate the app into other languages, or make derivative versions. The app itself, and all the trade marks, copyright related to the source codes, database rights and other intellectual property rights related to it, still belong to Newsmill.

At the bottom of these terms and conditions you will be able to find links to our website where we set out our Privacy Policy, for users , which will be relevant if you use the app to read or listen to news.

Newsmill is a news aggregator app which collects news from all around the world using 3rd party API and hence is not responsible for the authenticity of the news .

You should be aware that there are certain things that Newsmill will not take responsibility for. Certain functions of the app, such as the ability to list popular news or playing the news for the user to listen to will all require the app to have an active internet connection. The connection can be Wi-Fi, or provided by your mobile network provider, but Newsmill cannot take responsibility for the app not working at full functionality if you don't have access to Wi-Fi, and you don't have any of your data allowance left.

If you're using the app outside of an area with Wi-Fi, you should remember that your terms of agreement with your mobile network provider will still apply. As a result, you may be charged by your mobile provider for the cost of data for the duration of the connection while accessing the app, or other third party charges. In using the app, you're accepting responsibility for any such charges, including roaming data charges if you use the app outside of your home territory (i.e. region or country) without turning off data roaming. If you are not the bill payer for the device on which you're using the app, please be aware that we assume that you have received permission from the bill payer for using the app.

At some point we may wish to update the app. The app is currently available on iOS – the requirements for this system (and for any additional systems we decide to extend the availability of the app to) may change, and you'll need to download the updates if you want to keep using the app. Newsmill does not promise that it will always update the app so that it is relevant to you and/or works with the iOS version that you have installed on your device. However, you promise to always accept updates to the application when offered to you. We may also wish to stop providing the app, and may terminate your use of it at any time without giving notice of termination to you. Unless we tell you otherwise, upon any

termination, (a) the rights and licenses granted to you in these terms will end; (b) you must stop using the app, and (if needed) delete it from your device.
